

Experiment 4: Installation of Windows on VirtualBox in Ubuntu

Step 1:-Installing the Virtual Box on Ubuntu

```
sudo apt update
```

```
sudo apt install virtualbox
```

```
sudo apt install dkms
```

```
mca87@mca87-HP-Pavilion-Desktop-590-p0xxx:~$ sudo apt update
Hit:1 http://security.ubuntu.com/ubuntu noble-security InRelease
Hit:2 http://archive.ubuntu.com/ubuntu noble InRelease

dkms is already the newest version (3.0.11-1ubuntu13).
0 upgraded, 0 newly installed, 0 to remove and 233 not upgraded.
```

Step 2:-Download a Windows ISO file

Feb 5 11:05

command to instalol virt... x Download Windows 10 D... x Virtual Box - Google Docs x Download Windows 10 D... x

www.microsoft.com/en-in/software-download/windows10ISO

Microsoft | Software Download Windows Windows Insider Preview

All Microsoft

Download Windows 10 Disc Image (ISO File)

Before updating, please refer to the [Windows release information status](#) for known issues to confirm your device is not impacted.

Stay Secure with Essential Windows Updates: After 14 October 2025, Windows 10 will no longer receive free software updates, technical support or security fixes. This means your PC will be more vulnerable to security threats and malware. **Consider Upgrading to Windows 11:** Move to the security, speed and innovation that Windows 11 PCs provide, available at every price point. Upgrading to Windows 11 ensures you continue to receive the latest security updates, features and technical support, keeping your PC safe and efficient. For more information on preparing for Windows 10 end of support, see our [Windows blog post](#).

You've been routed to this page because the operating system you're using won't support the Windows 10 media creation tool and we want to make sure you can download Windows 10. To use the media creation tool, visit the [Microsoft Software Download Windows 10 page](#) from a Windows 7, Windows 8.1 or Windows 10 device.

You can use this page to download a disc image (ISO file) that can be used to install or reinstall Windows 10. The image can also be used to create installation media using a USB flash drive or DVD.

Step 3:-Create a new virtual machine and allocate resources

Oracle VM VirtualBox Manager

File Machine Help

Tools

Preferences Import Export New Add

Welcome to VirtualBox!

The left part of application window contains global tools and lists all virtual machines and virtual machine groups on your computer. You can import, add and create new VMs using corresponding

Create Virtual Machine

Virtual machine Name and Operating System

Please choose a descriptive name and destination folder for the new virtual machine. The name you choose will be used throughout VirtualBox to identify this machine. Additionally, you can select an ISO image which may be used to install the guest operating system.

Name: windows ✓

Folder: /home/mca87/VirtualBox VMs

ISO Image: /home/mca87/Downloads/Windows 10 Pro 20H2 by SKB.iso

Edition:

Type: Microsoft Windows

Version: Windows 10 (64-bit)

☒ Skip Unattended Installation

OS type cannot be determined from the selected ISO, the guest OS will need to be installed manually.

Create Virtual Machine

Hardware

You can modify virtual machine's hardware by changing amount of RAM and virtual CPU count. Enabling EFI is also possible.

Base Memory:  2048 MB

Processors:  1

☐ Enable EFI (special OSes only)

Create Virtual Machine

Virtual Hard disk

If you wish you can add a virtual hard disk to the new machine. You can either create a new hard disk file or select an existing one. Alternatively you can create a virtual machine without a virtual hard disk.

☒ Create a Virtual Hard Disk Now

Disk Size:  50.00 GB

☐ Pre-allocate Full Size

☐ Use an Existing Virtual Hard Disk File

☐ Do Not Add a Virtual Hard Disk
